Medical Emergency

Medical Emergency - Visit a local hospital

Kutchan Kosei General Hospital (+81) 136-22-1141

Night-time medical service in Niseko & Kutchan

Kutchan Kosei General Hospital may offer a night-time consultation, depending on your condition and their available resources. You should make a phone-call to the Hospital before you visit in order to confirm whether or not they can accept you.

Call an Ambulance

Dial 119

Do you have International Travel Insurance?

Medical service is NOT free of charge in Japan and can be expensive.

We recommend buying insurance for your stay in Japan.

Choose a suitable insurance policy that covers your medical cost and/or sports activities (e.g. skiing, rafting) that you have planned to enjoy.

Many insurance policies allow you to buy, extend and claim (online) anytime - even if you're already on the road.

Four Different Types of Medical Institutions in the Kutchan and Niseko area

Category	Explanation	Examples
Primary Care: family doctor/ general practitioner (GP)	A family doctor/GP examines your condition thoroughly, i.e. primary care or general medical services. Primary care service is especially convenient if you find it difficult to decide which specialist you should visit. A family doctor/GP consults you and then either diagnoses and treats your condition at the surgery or refers you to a specialist.	◆ Niseko International Clinic
Primary Care (family doctor/GP) alongside Medical Specialists	Primary care/general medical services are offered whilst each doctor has their own medical specialty (e.g. stomach, heart). A clinic has a range of specialist medical devices and equipment.	◆ Niseko Clinic ◆ Kutosan Surgical Gastroenterologist Clinic
Specialists	Specialist consultations and treatments are available without any referral or appointments. Each doctor has their specialty and a specialist clinic is equipped with various medical devices and facilities.	◆ Niseko Neurosurgery Clinic ◆ Shirakaba Internal Medicine Clinic ◆ Sato Internal Medicine ◆ Ueda Orthopedic Surgery ◆ Yotei Pediatrics and Allergy Clinic
Hospital	A hospital consists of a number of medical departments and units that cover a range of specialties (including general medicine). It is equipped with various medical devices and facilities. A hospital normally offers outpatient and inpatient care.	◆ Kutchan Kosei General Hospital

Three Different Category / Group of Japanese medicine

Category	Explanation	Examples
 Prescription drugs	Drugs only available through prescription from a doctor after a medical consultation.	◆ Morning-After Pill
 Behind the Counter Drugs First Class Over-the-Counter (OTC) Drugs	Drugs only available under the guidance or advice by a pharmacist. Contains more effective medical ingredients than second and third class OTC drugs.	◆ Anti-inflammatory drug (e.g. Loxonin S) ◆ Gastrointestinal drug (e.g.H2 blockers) ◆ Anti-herpes agents ◆ Anti-histamine (e.g. Claritin) ◆ Antifungal drug
 Over-the-Counter Drugs (i.e. second-class OTC drugs and third-class OTC drugs)	Available at Japanese drugstores without any prescription or pharmacist advice.	◆ Cold remedy ◆ Anti-histamine ◆ Pain killers ◆ Disinfectants ◆ Eye drops ◆ Creams for itchy skin ◆ Vitamin pills

Seeing a doctor in Japan

1. Visit a doctor

- No need for an appointment.
- First-come first-served basis, depending on each patient's condition.

2. Reception and Acceptance

- Fill in a medical sheet. Write down your personal information (e.g. phone number), your current condition and symptoms (e.g. broken leg) and your medical history (e.g. allergies).
- Check your insurance status. If you claim from an insurance company for the medical costs, you normally need a "medical certificate". If you need one, please request at reception.

3. Consultation and Medical Examination

- See a doctor to diagnose your symptoms and condition.
- On-site blood tests, X-ray, CT, ultra-sounds, endoscopic examination etc. can be offered --- even if you visit a small surgery and/or clinic.
- If necessary, you might be referred to another specialist or a hospital.

4. Payment and Check-out

- Must pay for your consultation fee.
- Receive your prescription.
- Your medication might be received here if in-house prescription service is available.

5. Visiting a Pharmacy

- Submit a prescription to any pharmacy within four days after your consultation.
- Receive prescribed drug with a brief explanation from a pharmacist.
- You can ask a pharmacist about your prescribed drug.
